

Dear [name],

We have great news for you! At [name of the preschool], we will be playing for a better and more sustainable world together with **Retoy**.

On [day] the [date], we will arrange a toy swap at [place]. With Retoy, we are using the magical power of play in order to let children find out how great it is to be environmentally friendly. At the same time, they get to learn more about their rights in accordance with the **United Nations Convention on the Rights of the Child**.

As everything around us is made from natural materials, it is great to use our things again and again - instead of throwing them away and buying new ones. By doing this, we help nature rest, grow and feel good. We can do this, for example, by swapping things with each other or creating new things from old ones. By using Retoy's educational material, we remind children and each other that we are part of the cycle of nature and that our actions can affect the world around us. By playing, children have the opportunity to get curious and creative and find out that every challenge has a solution.

### We need your help!

#### ♥ Bring toys from home

Let your child choose 2-4 toys from home that he or she is no longer playing with. We will use the toys during the toy-swap activity. And your child will be able to choose other toys to take home.

#### ♥ Find out if the toys contain any toxics

We sort out toys that may contain harmful chemicals, and encourage adults to use Retoy's checklist to sort out the toys their children have.

It is our responsibility as adults to ensure that children do not have toys around them that may harm them. Unfortunately, many toys contain dangerous chemicals. This is why we play to ensure that more people can help remove toxins from the environments in which children live. If you are unsure or have questions, you can ask us or find information at [www.retoy.se](http://www.retoy.se).

**Thanks for helping us play for a better world!**

Playful greetings from [name of preschool]
