

Regulations film licence

For the Alumni Network Toolkit "Swedish Film Screening"

The Swedish Institute has a specific license for the films in the Swedish Film Box that is available at the Swedish embassies. When you borrow a film, it is important that you comply to the following regulations.

- You are not allowed to charge anyone an entrance fee to join the screening
- Make sure the embassy staff gets the information they need after the event. As they are responsible for the film, it is important that you have a dialogue with them
- Preferably, have someone from the embassy join the event
- Only your event is allowed to be marketed, not the single title of the film
- You can only show the film once
- You are not allowed to lend the film to anyone else
