

Metal pins on backing card

THE STRUGGLE IS NOT OVER. YET.

To date, not one single country in the world is equal. If LGBTI individuals are to enjoy full equality in society, then more changes for the better are needed. Not only in laws, but in attitudes too. Sweden acknowledges this by keeping up the fight for justice and equality. Because human rights are everyone's rights.

Love,

THE STRUGGLE IS NOT OVER. YET.
